

Student Print Allocation

Prior to the start of each fall semester, all USciences students (beginning with the incoming class of 2018) will be provided with a printing allotment to allow for 1000 black and white single sided prints per year. The annual printing budget will be displayed as \$90 and is placed in a special Heartland/OneCard account that has no refundable cash value. Yearly allocations will be added each fall to the existing print total annually until graduation/withdrawal.

However, if a student wishes to add printing capacity, they may purchase this through the OneCard system. To purchase additional prints, a student may add money to their account at the kiosk located in Wilson Hall or at onecard.usciences.edu. Funds added to a student's printing account are non-transferrable and cannot be refunded. Therefore, students should only transfer funds that they expect to use for printing into this account.

Issues with a printer? Submit a ticket to the Help Desk – you will be refunded for any lost pages. Tickets for page refunds must be submitted within one week of lost pages.

Graduate Students: 1,000 b/w prints (\$90) per year
